South Carolina Administrative Practice and Procedure, written and edited by some of South Carolina's most knowledgeable and experienced administrative law practitioners, judges, and academics, is the only book of its kind in South Carolina. This valuable and important book covers every major aspect of administrative practice and procedure in this state in a scholarly and practical way. **South Carolina Administrative Practice and Procedure** picks up where Professor Shipley's treatise stops with an emphasis on "how to" successfully practice before South Carolina's administrative agencies and the Administrative Law Judge Division. Written with the practitioner in mind, this is neither a dry recitation of the APA nor merely an explanation of the cases that have interpreted it. Instead, this valuable book is a manual on how to navigate the complex world of South Carolina Administrative Law.

Whether you are an experienced administrative law practitioner, a novice to this challenging arena, a member of the regulated community or a CPA, this book is a "must have" for your library.
